

Unlock The Chest

Register online to open up a wealth of public sector opportunities

Copeland Borough Council is a member of Effective Procurement in Cumbria (EPiC), a collaborative procurement project involving Cumbria County Council, the six district councils and the Lake District National Park Authority.

EPiC is committed to using the North West procurement portal 'The Chest', which enables both contract opportunities to be advertised and the tendering process to be carried out online. The Chest is completely **FREE** to use for all businesses.

EPiC's combined spend is around £300m, and The Chest opens up access to business opportunities not just in Cumbria but the whole of the North West.

Some of the major benefits of The Chest are:

- Businesses can find out about new sources of potential revenue and so grow and develop to the benefit of the local economy
- Quotations and tenders can be submitted electronically almost instantly
- Email updates can be sent to businesses when opportunities arise within their areas of expertise
- Proven added security and knowledge that your submission has been delivered

To register for The Chest, please visit:
