**OSC-SOC130**    **Mental Health Consultation**

During discussion at their meeting yesterday, the Overview and Scrutiny Committee for Social Well-being wanted the following views to be known and considered in formulating any Council response:

- The administration is not as important as service delivery and Members wished to express concern as to whether the recent changes were delivering an effective local service.
- The name, they felt, was unimportant.
- They wanted to know why learning disability services in South Cumbria were not being transferred (page 6).
- They wanted to see Membership based on 'need' and not on size of population.
- They are supportive of staff membership.
- They wanted further information about how 5,000 members were going to be attracted – they felt that some of the documentation was unclear that members do not have to be service users.

- They felt that as LSPs were supposed to make sure that local targets were delivered that there should be LSP representation. They also wanted to make sure that a new trust would apply the same commitment to existing strategies, such as the Cumbria-wide housing and supporting people strategies.
- They felt that not only was the thinking correct to lower the age limit to 14, but that there should be a 'special place' available for 'youth' representation and wanted further information as to how young people will be attracted.
- They felt that the Governors' Council was far too large for effective decision-making and governance – it was felt that smaller area-based groups should feed into a smaller central body.

**OSC-SOC131 Forward Plan**

The forward plan of key decisions to be taken by the Executive was received and noted.

**OSC-SOC132 Work Plan**

The joint work plan of the Overview and Scrutiny Committee was submitted and noted.
