REVENUES & BENEFITS CHANGE PROGRAMME			
ISSUES & RISKS			
Description	Impact	Action	
ISSUES			
Backlog created during downtime and whilst staff getting to know the system	Delay in paying HB/CTB	Prioritised the work as well as giving staff clear guidance and tasks. Additional floor walking/training assistance given.	
RISKS			
Resources in IT available to write interfaces between Academy & other council systems	May impact on 'go live' date; high impact; medium likelihood	Still requires input from IT resource until all problems sorted	
Capacity within IT to support project	May impact on 'go live' date; high impact; high likelihood		
Key appointment to new structure delayed	Lack of managerial capacity to drive forward change programme	Executive approval sought to fast track recruitment. Look to extend the retention of existing change programme.	
COMMENTS:			
1. With the exception of the BVPI data and the management development training there are no other actions outstanding. Both of these items are covered in the BFI action plan.
