

What is Albion Square?

[Regeneration](#) [1]

Albion Square is the name of the development that is being built next to the multi-storey car park in Whitehaven. The scheme development and delivery has been supported and funded by a range of partners including Copeland Borough Council, Britain's Energy Coast and the Nuclear Decommissioning Authority as main funder and developer. Morgan Sindall is the construction contractor and the tenant will be Sellafield.

It is anticipated that around 900 Sellafield workers will move into the office development on completion in Spring 2014.
