Summary:	The attached draft report from CORWM covers their future work programme for 2008 to 2010 and sets out the priorities for this year
----------	--

Recommendation:	It is recommended that Members note the report and feed back any comments by 21 March 08
-----------------	--

INTRODUCTION

The Committee on Radioactive Waste Management (CoRWM) is collating comments on its draft 2008 - 2010 work programme during the month of March 08. The final version will be sent to Ministers on the 31 March 08.

KEY ISSUES

- The Council supports the Committee's commitment to keep the work programme under permanent review in order to ensure that it is up to date and offers the best value for money.
- Annex A; outlines the Committee's terms of reference.
- The Council feels it is important that CoRWM establishes public confidence in its work and in particular, the transparency of its processes to carry out scrutiny and provide advice. Building trust in a local community is vital in delivering the MRWS programme.

FURTHER INFORMATION

The work programme appears to be consistent with Council expectations and policy.
