Decision							
200.0.0.1							
That the development of an improvement and efficiency policy for the purposes of addressing the Council's further need to find Best Value in public service and public service delivery be approved for submission and approval by Council.							
Explanation							
The Council's record in efficiency savings over the last number of years has been consistent and exceeded expectations. (See 'Annual Efficiency Statement' elsewhere on this agenda.) In addition to Gershon savings, however, there are now a number of other requirements in place that are going to drive the Council's efficiency agenda further and harder. This report explains what these requirements are and how the Council may seek to address them and realise the improvements that will go with them
