National Performance Framework

EXECUTIVE MEMBER:

Councillor Giel

LEAD OFFICER:

Chief Executive

REPORT AUTHOR:

Hilary Mitchell

Summary and Recommendation: The report contains details of the new National Performance Framework, including the 198 national indicators.

Audit Committee is asked to note the report.

1. INTRODUCTION

- 1.1 Local Authorities in England have been monitoring against national statutory performance indicators since 1992. The numbers of indicators and the bodies which have set the indicators have varied over the years. There were increasing numbers which had been separately drawn up and added to local authority burdens.
- 1.2 The Department of Communities and Local Government have recently reviewed the whole collection of PIs and republished them. The detail of how to measure performance against the indicators has been subject to consultation, which is close to being concluded. A substantial number will be measured by survey of residents through the "Place Survey". The new National Indicators come into effect from 1 April 2008 in most cases.
- 1.3 Local authorities will measure their performance against these indicators and it is anticipated that Copeland Borough Council will report progress quarterly to Executive, as at present.
- 1.4 The Local Area Agreement, which is negotiated with central Government on behalf of Cumbrian authorities by the County Council, will contain targets against 35 of these indicators, which are particularly relevant to demands and issues in Cumbria. The latest information on these will be brought to the meeting.

Product Code: 07 LGSR 04876

Foreword

Effective local government is the backbone of strong communities, of prosperous towns and villages. It is responsible for aspects of everyday life that people care about deeply – from green parks, to well-stocked libraries, to clean streets.

In 1997, local government was under-resourced, run-down and demoralised. Since then, funding has increased 39% in real terms. Performance has risen year on year, and today three quarters of councils are rated very good or excellent.

But if we are to continue to improve public services in the way communities expect and deserve, and if we are to enable local government to live up to its full potential, Whitehall today needs to step back and give it the space to lead.

That is why the Prime Minister has called for "a reinvention of the way we govern", an historic transfer of power from Whitehall to the town hall, and direct to communities.

This local devolution is the key to reinvigorating the grass roots of democracy, to making public services reflect what communities want, and to facing up to some of the most complex challenges we face today, such as climate change and community cohesion. To tackle such agendas the need for local authorities and their public services providers to work together in partnership is even greater.

The 2006 Local Government White Paper, *Strong and Prosperous Communities*, promised a new era of freedom for local government: greater flexibility to set priorities, greater discretion over how to meet them. This meant that, among other things, up to an estimated 1,200 indicators for assessing performance would be reduced to around 200.

This document shows that Government is delivering. It sets out a single set of just 198 measures representing what Government believes should be the national priorities for local government, working alone or in partnership, over the next three years. It rightly paves the way for local authorities and their partners to look less to Whitehall for legitimacy and direction, and more to the communities they serve.

Alongside measures such as moving £5bn into general non-ring fenced grants allowing councils to spend money on the issues that matter locally, the single set of national indicators marks a big step in turning the rhetoric of devolution into reality. As we put it into practice it will give local government the space to thrive, to continue improving services, and to give communities what they need. The onus is now on local authorities and their partners to rise to the challenge, and I am confident they can deliver.

Rt Hon Hazel Blears MP

azel Stear

Secretary of State for Communities and Local Government

Introduction

This document sets out the headline definitions of the 198 indicators which will underpin the new performance framework. This national indicator set has been developed as part of the Comprehensive Spending Review 2007 so that it reflects the Government's national priorities. Performance against each of the 198 indicators will be reported for every single tier and county council Local Strategic Partnership.

Local Government is also responsible for many other services and activities valued by local people: these are not directly reflected in the national indicator set. It does not mean those activities should stop. It means that it is right for local authorities, and not Whitehall, to set their own priorities, and monitor performance themselves.

The national indicator set will be the *only* measures on which central government will performance manage outcomes delivered by local government working alone or in partnerships. From April 2008, all other sets of indicators, including Best Value Performance Indicators and Performance Assessment Framework indicators, will be abolished.

As the new performance framework is focused on outcomes and their delivery through stronger partnership working, the same indicators will be used for different local partners as relevant. Therefore, many of the indicators in this set will also apply to the police, primary care trusts and other local bodies.

In each area, targets against the set of national indicators will be negotiated through new Local Area Agreements (LAAs). Each Agreement will include up to 35 targets from among the national indicators, complemented by 17 statutory targets on educational attainment and early years. There will be no other way of setting targets, no other way of Whitehall managing local authority performance.

Setting the targets will be the subject of genuine negotiation between central Government and the local area. Whitehall will not mandate them. Even where targets are set out for Public Service Agreements at national level, local areas will have the flexibility to respond to these national ambitions in the most appropriate way in negotiation with Government Offices

The headline definitions for the 198 national indicators are outlined below. We will shortly consult on the technical definitions of the indicators, giving stakeholders an opportunity to give views on the methodology, frequency of reporting, and data source of each individual indicator. If in the interim period there are detailed questions relating to the indicators, these can be directed to nationalindicators@communities.gsi.gov.uk.
