

**Corporate Plan - Refreshed for 2008-12**

**EXECUTIVE** Councillor E Woodburn  
**MEMBER:**  
**LEAD OFFICER:** Chief Executive  
**REPORT AUTHOR:** Hilary Mitchell

**Summary and Recommendation:** This report is to seek Council approval of the refreshed Corporate Plan.

It is recommended that Council approves the refreshed Corporate Plan for 2008-12.

**1. INTRODUCTION**

- 1.1 The Corporate Plan contains the long term vision, direction and priorities of the Council. It is used to shape service plans to ensure all departments within the Council are working towards the same vision of the future and focusing on the same priorities. It forms a basis against which to measure performance. The Council's 5 year Corporate Plan was agreed in April 2007.
- 1.2 An exercise has recently been undertaken to update the Plan, which is to be circulated with this report, to review its content and make any minor revisions as required. These have mainly been changes to dates, removal of duplications and a small number of additions to take account of the developing agenda for Copeland.
- 1.3 All managers and members of Corporate Team have been involved in this exercise. Managers and members of the Executive have been copied in to the various versions of the Plan as it has progressed. All Members were consulted on the draft Plan during March and April 2008.
- 1.4 The new National Indicator set (NIs) are being used as measures for some targets in the Plan. Indicators developed from the Sustainable Communities Strategy "Future Generation" and the new Cumbria Local Area Agreement have been added.

**2. ARGUMENT**

- 2.1.1 For the Corporate Plan to be effective it must remain a living document. Although the core message of the Corporate Plan has not changed, minor details in the edition to be agreed have, as the Council responds to its own progress and the needs of the community.

### **3. CONCLUSIONS**

4.1 The significance of the Corporate Plan for all the Council's policies, projects and services means that changing it needs formal agreement by the Executive and by full Council.

### **4. FINANCIAL AND HUMAN RESOURCES IMPLICATIONS (INCLUDING SOURCES OF FINANCE)**

5.1 The Council budget, agreed on the 26<sup>th</sup> February 2008, was drawn up to meet the requirements of delivering the Corporate Plan.

5.2 Human Resources should be put in place by the Council to deliver the Corporate Plan. In the budget for 2008/09 there is allowance to increase the Council's staff by a small number of key posts to meet priorities in the Corporate Plan.

## **Foreword**

We are delighted to present our refreshed 5 year Corporate Plan for 2007 - 2012. It builds on our achievements of the first year of delivery, in which we achieved 85% of our intended objectives. It sets out our ambitions for the future for Copeland Borough and for the Council.

It is true partnership working that will deliver for local people. Our 5 year plan identifies aims and actions which will help to guide the way we work with partners from the public, private and voluntary sectors to provide services within Copeland. To ensure alignment between partner organisations, we consulted with staff, members and partner organisations to be confident that our key themes align with local needs and aspirations.

Local government is constantly subject to change and within this environment the Council strives to provide an excellent quality service to the local community, while maintaining its focus on the significant external challenges to the Borough. There is no doubt that the greatest challenge we face is the need to sustain our economy while transforming our economic base which may decline following the decommissioning of the Sellafield site.

We are not prepared to accept the status quo and therefore our vision is ambitious: but Copeland already has many strengths to build upon, and this corporate plan will allow us to do this while ensuring we deliver the priorities for all the residents of Copeland.

Shortly before the beginning of the second year of the Plan, we have reviewed our progress and updated the document, so that it sets out the Council's latest thinking and priorities for the next four years.

## **Introduction**

The 5 Year Corporate Plan is the document which sets the strategic direction for the Council over the next five years. It describes the Council's key objectives; the actions that will be taken to deliver those objectives; and defines how progress will be measured. It is the starting point for our service planning and provides the focus for all our work, whether delivering services to the front line or working with partners to influence central government strategy.

Copeland is a place of contrasts. It is predominantly rural in character - two thirds of the borough is within the Lake District National Park, so agriculture and tourism play a significant role in the local economy. However, the majority of residents live in the relatively narrow coastal strip served by the A595 and West Coast rail line. The population of some 70,600 is concentrated in four main centres: Whitehaven, Egremont and Cleator Moor in the north of the borough, and Millom in the south.

Despite a rich industrial heritage of mining, shipping and heavy chemical manufacturing, life in Copeland is now dominated by the presence of the nuclear industry. The sector is undergoing a major upheaval which will have a fundamental effect on the community and a key priority is to respond to the challenges and opportunities that this brings. As community leaders, we are taking the lead to ensure that Copeland maximises the benefits from developments in the nuclear sector, while working towards a more diverse economic base. This should ensure that the Borough is more protected from major change in individual employment sectors in the future.

From the mid nineties to 2002 the population remained level and the number of job opportunities fell steeply. Since then there has been an upturn in both jobs and population. However, this is still relatively modest and finding ways of maintaining the upward trend in the face of the nuclear decommissioning programme will be a key objective.

We have a population that is also increasing in average age. This brings challenges in terms of the economy, future service requirements and community cohesiveness.

Although we live in one of the most beautiful parts of the country, we are geographically remote from the transport infrastructure. As a community we need to not only harness the opportunities that new communications technology brings, but seek to improve access to and from the Borough.

Over the last five year period the Council, in partnership, has achieved many notable successes, including good progress in transforming Whitehaven and its Harbourside; and the rapid development of the Westlakes Science Park. Some of our worst eyesores have been brought back into use – Whitehaven Castle, the old Cleator Moor Coop and buildings in

Whitehaven and Egremont Market Places. We have attracted the Nuclear Decommissioning Authority headquarters, the North Shore Customer Service Centre and have supported the creation of 2048 new jobs over the last four years (which means that we are well on our way to meeting our ten year target of 5000 jobs created between 2002 and 2012). We have established new mechanisms for delivering the commitment and resource we need for the future through the West Cumbria Strategic Forum, West Lakes Renaissance (the Urban Regeneration Company) and the Nuclear Decommissioning Authority. We successfully campaigned to get the Parton-Lillyhall bypass in the national roads programme, and work on this is now well-advanced.

To deliver this level of achievement in regeneration we have been able to attract a high level of external funding for every pound raised locally, giving exceptional value for money. *From 2008 Copeland Borough benefits from £1m per year for the next three years of additional Government money to tackle the causes of worklessness. We are setting up the Community Interest Fund for the people of Copeland in partnership with Cumbria County Council and the NDA for administering the fund.*

*We are focussing on improving our own business performance by carrying out a Pay and Grading review and workforce development to recruit, retain and achieve a well motivated workforce. In addition we are aiming to implement ICT solutions to support modernized working methods including Customer Relationship Management, improved web and intranet sites, flexible ways of working and improved communication channels for access to services and decision making.*

We created new arrangements to strive to achieve the Decent Homes Standard and deliver other housing improvements through the upgrading of the Borough's housing stock by transferring them to a new body (Copeland Homes). *We are aiming to develop improvement grants for those on low incomes with a view to meeting decent homes targets and tackling climate change through better insulation*

We established Leisure Copeland to drive the management and development of the area's leisure facilities. Both of these transfers achieve the best possible value for money for our residents, while giving improvements in facilities and services. *Over the next year we will be continuing to work towards the development of the Pow Beck site to achieve improved leisure and recreation facilities for the Borough.*

We continue to win accolades in a range of areas, especially for the quality of the environmental work we do. These include Green flags for our Parks and Open Spaces, holding four of Cumbria's six Green Flags and one of Cumbria's two Green Heritage Awards

at Egremont Castle; successes in Cumbria in Bloom and Britain in Bloom. We also continue to win recognition in the Business Excellence Awards.

During 2006/7 an intense piece of work was carried out across Cumbria to develop the Cumbria Local Area Agreement. This came into effect in April 2007 and was in the process of being updated for 2008-11 as this Corporate Plan was being revised. Copeland Borough Council recognises its responsibilities to contribute to successful delivery of the Agreement. Several of our priority actions will directly contribute to this. This will also support the delivery of the West Cumbria Sustainable Communities Strategy.

Local government will need to act flexibly and responsively to meet future challenges. To be successful three key strands need to be in place – strong local political leadership, strong partnership arrangements and citizenship engagement. These should ensure that strategic decision making is supported by joined up thinking; driving the engagement of both communities and individuals to meet the diverse and often contradictory needs in their area.

This 5 year plan touches upon the themes described – those of leadership, partnership and engagement; as well as addressing many of the target areas in the Cumbria Local Area Agreement and the West Cumbria Sustainable Communities Strategy "Future Generation" which will have a high impact on the Borough. It sits within the wider regional structure of plans and strategies; as well as providing direction for the Council's individual department and service plans – this structure is shown in Annex 1.

## **How we will use this plan**

The Council's 5 year Corporate Plan provides a framework of objectives to achieve our vision for Copeland. On an annual basis the Council will decide key priorities; and in any given year we will ensure that delivery is properly resourced and is achieved as planned.

As part of the budget setting process for 2008/9/11, public consultation focussed on what among all the objectives in the Council's main plan were those that local people thought should have highest priority. They were:

- Quality environment
- Good roads and transport
- Enough jobs to suit all
- Keeping Copeland safe
- Improving skills and education
- Good customer service

The information from people in Copeland gives the Council a clear steer on how we should deploy our resources in future. Many of our activities support the delivery of these aims, and even if we are not directly responsible for delivery, we are in a position to influence those that are. You will see that the public's priorities are highlighted as they occur in the plan, and over the coming months the Council will increasingly focus in these areas.

## **Context**

### ***Vision and Themes***

We are committed to working effectively through our service areas and with partner organisations both to improve the way the council operates and to address residents', businesses, partners' and visitors' key issues and needs. Our vision reflects this:

***Copeland Borough Council – leading the transformation of West Cumbria to a prosperous future.***

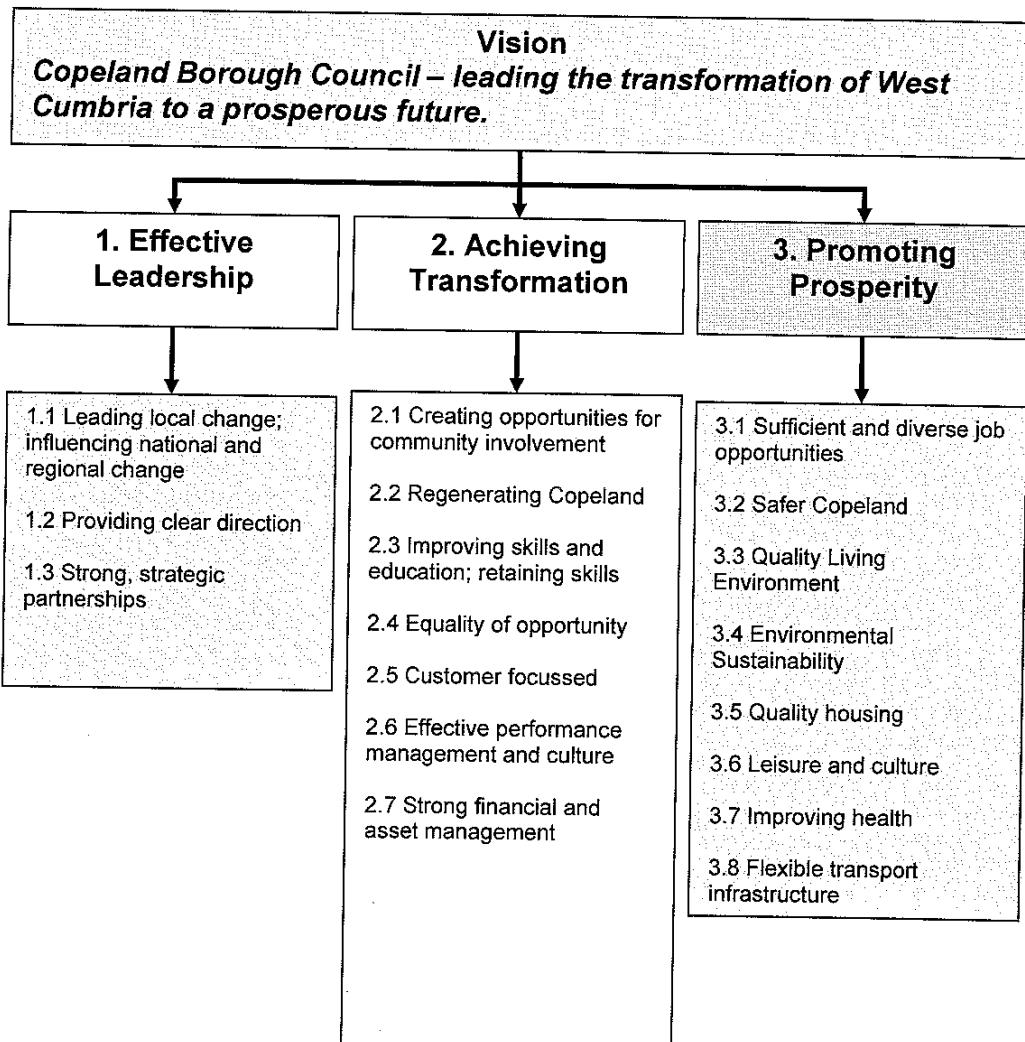

What do we mean by this?

We will show ***leadership*** – shaping the local agenda; working in partnership; providing clear direction through our policies and plans towards the achievement of that agenda; and ensuring that we represent the interests of the local community at all times.

We will continue to work to ***transform*** Copeland to ensure a ***prosperous*** future. This will be evidenced by a strong and varied local economy; good quality of life; equal opportunity and neighbourhood renewal. Many of these outcomes will take longer than the five year timeframe of this plan, but we can set the direction and route over that period.

## Aims and Outcomes

From the three themes of leadership, transformation and achieving prosperity we have identified the key aims which will underpin our vision; and the high level actions and outcomes needed to achieve those aims. The diagram below shows the structure of the plan:

<b>1.1 Leading local change; influencing national and regional change</b> Copeland will use its democratic mandate to lead local transformation for the benefit of the community; and will be seen as an influential contributor at national and regional level.			<b>Lead:</b> Chief Executive

## Annex 1 - The Planning Structure

This 5 year plan will sit within the wider regional and sub regional structure of plans and strategies; as well as providing the direction for the Council's one year delivery plan and individual department and service plans. Further detail of actions to meet the corporate plan objectives can be found in these documents.

The diagram below shows the link between the regional strategies and plans and the Council's internal planning structure.

**Cumbria Community Strategy:** The agreed vision and strategy for Cumbria for the next 10 years.

**Sustainable Communities Strategy for West Cumbria:** The Strategy contains the shared vision, priorities and outcomes of partners in West Cumbria.

<b>Cumbria Local Area: Agreement</b>	The Local Area Agreement defines the shared priorities across partner organisations in Cumbria.
<b>Department Plans:</b>	These documents detail what each department will do to support the achievement of the corporate plan and the 1 year delivery plan; and to meet its statutory requirements.
<b>Service Plans:</b>	These documents detail what each service area will do to support the achievement of the corporate plan and the 1 year delivery plan; and to meet its statutory requirements.
<b>Medium Term Financial Strategy:</b>	The strategy aims to provide the means by which the Council intends to achieve its vision and priorities as stated in the Corporate Plan, and results in priority based budgeting. The Strategy covers a rolling three year period so that the Council can plan ahead; it includes expenditure forecasts and projected funding.
