

Replacement of Contact Centre Software

EXECUTIVE MEMBER: Councillor N Williams

LEAD OFFICER: Jane Salt, Head of Customer Services

REPORT AUTHOR: Jane Salt, Head of Customer Services

Summary and Recommendation: To approve the project plan for the replacement of the contact centre software

1. INTRODUCTION

1.1 At the Executive meeting on 24 April 2007 it was agreed to pursue the replacement of the existing contact centre software with the supplier who had been developing a system with the Connected Cumbria Partnership, that is CGI. Due to the uniqueness of the Excelsior product it was agreed that a full tendering process was not required.

1.2 It was also agreed that a further report containing a detailed project plan should be presented to the Executive. The project plan is shown at Appendix A, this forms part of the project initiation document which is available in the Members Room.

2. ARGUMENT

2.1 The main reasons for wanting to replace the CRM are:

- Our existing system (BTCC) offers limited functionality that is restricting Customer Service performance and affecting business continuity.
- The costs of developing BTCC to meet the Council's current and future requirements prohibits the enhancements required.
- BTCC requires expensive annual licensing and maintenance to support the functionality

2.2 The implementation of the Excelsior product will address all of these issues.

3. OPTIONS TO BE CONSIDERED

3.1 In order to deliver the project on time it is essential that there is a detailed project plan.

4. CONCLUSIONS

4.1 That the project plan be commenced following this report.

5. FINANCIAL AND HUMAN RESOURCES IMPLICATIONS (INCLUDING SOURCES OF FINANCE)

5.1 The financial implication is the cost of purchasing the Excelsior product but this will lead to year on year savings. It is currently anticipated that the cost is covered within existing budgets.

5.2 The human resource implication is the resource required to implement the new system and time for the training of all customer service officers.

6. PROJECT AND RISK MANAGEMENT

6.1 These are all included in the in the project initiation document which is available in the members room.

7. IMPACT ON CORPORATE PLAN

7.1 The Excelsior product will support the Council in becoming more customer focussed (2.5).
