

## Copeland Partnership Plan

**EXECUTIVE MEMBER:** Councillor Elaine Woodburn  
**LEAD OFFICER:** Julie Betteridge, Head of Regeneration and Community  
**REPORT AUTHOR:** Julie Betteridge, Head of Regeneration and Community

### WHAT BENEFITS WILL THESE PROPOSALS BRING TO COPELAND RESIDENTS?

The Sustainable Community Strategy for Copeland sets out priority areas for improved services and quality of life for Copeland residents which will shape service delivery across and within the borough to best meet resident needs.

### WHY HAS THIS REPORT COME TO THE EXECUTIVE? (eg Key Decision, Policy recommendation for Full Council, at request of Council,etc.)

The Council has a statutory requirement to provide a Sustainable Community Strategy for its area. The Copeland Partnership Plan will replace Future Generations as the sustainable community strategy covering Copeland.

#### RECOMMENDATIONS:

Council is recommended to

- a) consider and approve the final draft Copeland Partnership Plan 2011-12 and strategy;
- b) consider and endorse the list of core indicators for each overarching aim within the strategy; and
- c) any minor amendments to the plan, prior to printing, be delegated to the Chief Executive.

#### 1. INTRODUCTION

- 1.1 Currently, Copeland has a shared sustainable community strategy, "Future Generations", with Allerdale. This sets out priority areas for improved services and quality of life for West Cumbrian residents around three aims: improving the place, improving prosperity and raising people's aspirations. The Sustainable Community Strategy for West Cumbria (a statutory requirement) remain as the key strategic document until it is replaced by the Copeland Partnership Plan.

1.2 The Copeland Partnership helps different organisations work together to improve the quality of life and deliver public services more effectively. The Partnership's main task is to oversee the preparation and delivery of its area's sustainable community strategy.

## 2. PROPOSALS

2.1 The Copeland Partnership Plan sets out our shared vision for maintaining and building sustainable communities throughout Copeland. In line with this, whilst the vision, aims and outcomes remain strong the Copeland Partnership will be reviewing the strategy annually at its Conference. The commitment from all stakeholder groups is for a dynamic fit for purpose document able to frame and shape service priorities across the borough.

2.2 This sustainable community strategy is at the core of a suite of documents that interlink to tell the story and inform stakeholders of the activity, priorities, progress and existing work happening to deliver against the Copeland Sustainable Community Vision - "By working together the Copeland Partnership will improve lives, sustain communities and enhance the prosperity of Copeland". The other documents include:

- One set of core performance indicators
- An Annual Priority Plan
- Annual Progress Report
- Locality Profiles and Locality Action Plans
- Theme Strategies and Action Plans
- Existing evidence documents, including annual strategic assessments on themes

## 3. ALTERNATIVE OPTIONS TO BE CONSIDERED

3.1 The Copeland Partnership and the Council as the strategic lead on the Sustainable Community Strategy had three choices:

- 1 To continue with Future Generations as the Strategy for West Cumbria;
- 2 To develop a Copeland Strategy drawing strongly on Future Generations; or
- 3 To develop a fully new Copeland Sustainable Community Strategy.

3.2 The Copeland Partnership stakeholders supported the need for Copeland priorities to be highlighted more clearly in the Sustainable Community Strategy covering the borough but wished to keep and build on the positive aspects of the existing Future Generations. Option 2 was the preferred option for the Partnership and the approach taken for the Copeland Partnership Plan.

#### **4. CONCLUSIONS**

- 4.1 Council is asked to consider and endorse the final draft Copeland Partnership Plan and strategy 2011-21..
- 4.2 The set of Performance Indicators offers a single set of success measures and will be updated annually to offer a continuing picture of progress towards Copeland Partnership Plan's vision. Council is asked to consider and endorse the list of core indicators for each overarching aim within the strategy.
- 4.3 The Copeland Partnership Plan will be supported by an Annual Plan agreed and developed by the Copeland Partnership. This will set out the annual priorities for partners to focus actively in support of improved services and quality of life.

#### **5. STATUTORY OFFICER COMMENTS**

- 5.1 The Monitoring Officer's comments are: the proposals in the report discharge the Council's statutory responsibilities to adopt a strategy.
- 5.2 The Section 151 Officer's comments are: There are no additional financial implications. We have a budget line for the Copeland Partnership of £60,770 which will enable delivery linked to our existing service activity.
- 5.3 Other consultee comments, if any: A wide range of consultation with Copeland Partnership stakeholders and specifically locality partnerships has been undertaken. Comments have been considered and amendments made to the strategy and performance indicator set.

#### **6. HOW WILL THE PROPOSALS BE PROJECT MANAGED AND HOW ARE THE RISKS GOING TO BE MANAGED?**

- 6.1 The Council will be managing the annual review and engagement with the Copeland Community Plan.
- 6.2 The annual performance data will be gathered from partners, collated and reported by the Council's Performance staff.

#### **7. WHAT MEASURABLE OUTCOMES OR OUTPUTS WILL ARISE FROM THIS REPORT?**

- 7.1 The Council will meet its responsibility for a sustainable community strategy and be assured that it is connected in to the localities and partnerships and partners delivering in Copeland.

7.2 There will be an annual report from the Copeland Partnership against this strategy and the performance measures and targets that the Partnership set.

**List of Appendices**

Appendix A – Copeland Partnership Plan (Final Draft)  
Appendix B - Copeland Partnership Performance Indicator Set  
Appendix C - Copeland Partnership Structure

**List of Background Documents:**

Copeland Partnership Conference documents  
Future Generations  
Theme strategies, Partnership and Locality Plans

## Copeland Partnership Plan

A strategy for sustainable communities in Copeland

2011 - 2021

**"By working together the Copeland Partnership will  
improve lives, sustain communities and  
enhance the prosperity of Copeland"**

## Foreword

The Copeland Partnership is the result of a consultation process to create a specific local strategic partnership arrangement for Copeland. The roots of the Copeland Partnership are in our six localities and it's structure has been built around existing partnership working and is assured in its streamlined delivery and ability to offer many routes of influence.

This Copeland Partnership Plan sets out our ten year shared vision for maintaining and building sustainable communities throughout Copeland. This Partnership Plan has been developed to be smart, realistic and achievable. The single set of priority outcomes and measure of success are for all services in Copeland to focus on delivering to address local issues and community concerns.

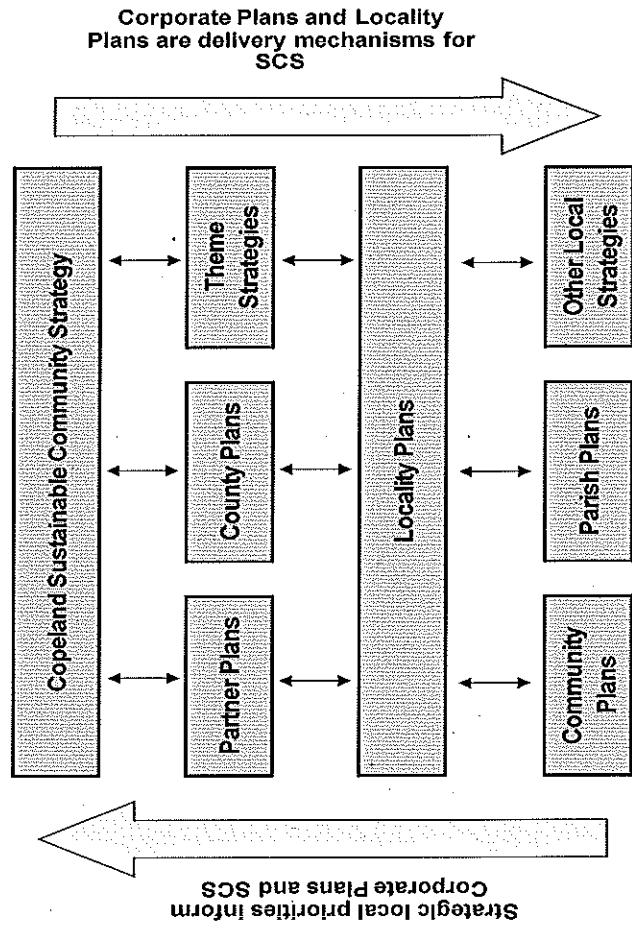

The commitment from all stakeholder groups is for a dynamic fit for purpose strategy able to frame and shape service priorities across the borough. The core principle of the Partnership is to enable activity to take place at the appropriate level. Much of the detail of this strategy will be delivered through existing delivery and partnership arrangements under the Copeland Partnership umbrella. The Partnership will annually set out its priorities for additional shared activity and focus under each aim and review this and the priorities in this strategy at its open Conference. This will focus on looking to intervene earlier to offer more choice, support and opportunities to prevent the need for residents and communities to reach crisis, secondly, to assist with addressing current issues and situations and finally, to take a sustainable approach and prepare for future opportunities and choices to enable residents to access services and opportunities for a lifetime.

We recognise the importance for this strategy to set out outcomes that are valid and credible for local stakeholders. Over the next ten years we will be working closely together to maintain understanding of local issues and concerns and to deliver against shared priorities that will improve the quality of life, opportunity and choice for Copeland residents, families and communities.

Ultimately we wish to ensure our communities are places where everyone has access to the services they need and is able to become involved in activities in their community.

Copeland Borough Council  
Copeland Local Area Committee, Cumbria County Council  
CALC, Copeland

Relationship with other plans and strategies:

### Our purpose and vision:

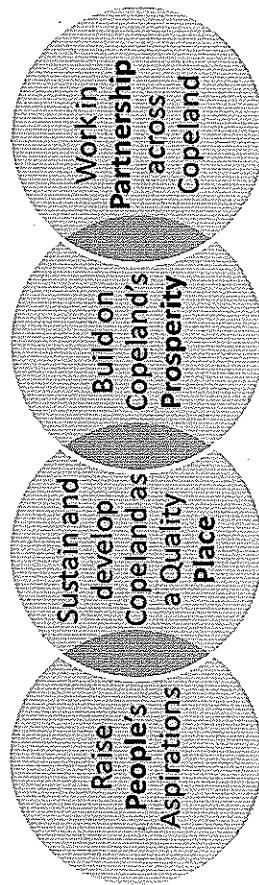

“By working together the Copeland Partnership will improve lives, sustain communities and enhance the prosperity of Copeland”

This Sustainable Community Strategy will enable Copeland to:

- Be a strong, diversified and well-connected economy, with a growing, appropriately-skilled population with high employment;
- Protect and enhance its special natural environments and be recognised by all as an area of outstanding natural beauty and vibrant lifestyle, which attracts a diverse population and visitor profile;
- Be home to a strong and healthy community, which offers (all of its) people a good quality of life and enables them to play a full part in their community and locality.
- Be globally recognised as a leading nuclear, energy, environment and related technology business cluster, building on its nuclear assets and its technology and research strengths.

### Our Overarching Aims:

In responding to the challenges facing Copeland together we are working towards four connected aims:

Over the next ten years we will focus on issues important to Copeland residents, businesses, agencies and communities:

People	Place	Prosperity	Partnership
Health and Wellbeing	Housing and Neighbourhood	Local Economy	Local / Community Planning
Life Chances and Aspiration	Access to facilities and services	Poverty and Exclusion	Improving joint working

### Focusing on People:

In developing the strategy a number of strong messages were received. Local knowledge combined with updated data and evidence has led the Copeland Partnership to some core people priorities within our ten year plan. The discussions and statistics evidence a need for a particular focus on young people to provide opportunities and infrastructure to engage and enable them to live and work in the area. This will require early intervention on aspiration including early awareness of opportunities and careers for young people. Early intervention in supporting families who are in poverty is one priority for the Copeland Partnership in tackling child poverty and its impact. Evidence and local messages focused on more attention to addressing parent poverty to offer children opportunities to break from this family poverty cycle. Children and young people living in poverty face a greater risk of poor health and failing to reach their full potential and there is a documented link between access to quality employment and child poverty. Copeland's health profile across all ages highlights persistent areas of poor health compared to the national average and significant discrepancy between healthy life expectancy in different neighbourhoods within the area.

PEOPLE – Together we will raise people's aspirations for themselves and for Copeland		
We want to see	We will prioritise	We will measure changes and progress in
<ul style="list-style-type: none"> <li>• A healthy community</li> <li>• Young people see a future for themselves in Copeland</li> <li>• Older people's needs integrated into service delivery</li> <li>• Opportunities for skills and lifelong learning</li> <li>• People believe that they can make a difference</li> <li>• People able to access the support they need to live with adequate resources</li> <li>• Less children living in and effected by poverty</li> </ul>	<ul style="list-style-type: none"> <li>• A shift towards earlier interventions on health inequalities and poverty</li> <li>• Helping young people reach their full potential</li> <li>• Enabling people to access the housing and support that they need, when they need it</li> <li>• Ensure that our residents are educated and equipped to apply for employment opportunities</li> </ul>	<ul style="list-style-type: none"> <li>• Residents' health profile</li> <li>• Our population profile</li> <li>• Young people into work and training and off NEET register</li> <li>• Educational attainment</li> <li>• Skills levels</li> <li>• Older persons poverty indicators</li> <li>• Residents' access to services</li> <li>• Persistent poverty and changes in child poverty indicators</li> <li>• Boosting confidence and aspiration</li> <li>• Tackling poverty and its effects</li> </ul>

**Focusing on Place:**

Copeland is a district area within Cumbria County and is located on the western edge of the county. The population of Copeland is 70,400, evenly split between males and females. Like other parts of the country it has a proportion of people living in the least affluent circumstances together with a proportion of people who are living in affluent circumstances. These communities are often located in close proximity to each other. Copeland's geography presents some of our greatest challenges. The area is perceived as being remote and difficult to get to providing a set of barriers for investment. Infrastructure improvements are needed to facilitate investment and growth. The area is most densely populated along the coastal fringe with low rural population density experiencing problems in accessing services. Copeland is home to over 60% of country's nuclear waste, concentrated around the Sellafield area with new commercial developments targeted to support settlements. There is a key role for the Copeland Partnership in tackling these challenges.

Place - Together we will sustain and develop Copeland as a quality place for successive generations to live, work and play.		
We want to see	We will prioritise	We will measure progress against
<ul style="list-style-type: none"> <li>• Current low levels of crime and anti-social behaviour maintain and reduce</li> <li>• Easy access into, out of and within, Copeland</li> <li>• Distinctive local landscapes and biodiversity conserved and enhanced</li> <li>• Copeland town and villages where people want to live, work and play</li> </ul>	<ul style="list-style-type: none"> <li>• Maintaining or reducing the low levels of local crime and anti-social behavior</li> <li>• Addressing domestic violence</li> <li>• Locality Transport issues</li> <li>• Enabling local pride</li> <li>• Affordable warmth</li> <li>• Facilitating the right housing offer to support economic growth and community sustainability</li> <li>• Making the best use of existing housing stock</li> <li>• Settlement based developments to keep existing business and residents and attract new</li> </ul>	<ul style="list-style-type: none"> <li>• Crime and community safety levels</li> <li>• Quality of Life Indicators</li> <li>• Quality and location of services</li> <li>• Communication links</li> <li>• Landscape, townscape, seascape and environmental quality</li> <li>• Housing conditions and affordability</li> <li>• Sustainability of our settlements</li> <li>• Regeneration and new build developments and impacts</li> </ul>

## Focusing on Prosperity

Copeland is full of economic contrasts being home to neighbourhoods with the highest and the lowest household income per capita in Cumbria. Census information together with the Index of Multiple Deprivation shows that some communities in Copeland have the most significant levels of disadvantage in England and levels of long-term worklessness are a key priority. The area contains the North West region's largest single employment site at Sellafield and activity is also focused around its associated supply chain and research capacity. The decline of the area's industry has been gradual although there has been some developing sectors such as Tourism this has not been of a significant scale to counter the decline in traditional industries. The small business and social enterprise sector play an important part in our settlements.

PROSPERITY - Together we will build on Copeland's prosperity		
We want to see	We will prioritise	We will measure changes and progress in
<ul style="list-style-type: none"> <li>• Dynamism, entrepreneurship and centres of excellence for developing technology and local job opportunities</li> <li>• Narrowing of the local income gap</li> <li>• More diversity in our local economy to create a wider range of jobs for residents</li> <li>• Local business sustained and grown</li> <li>• Stronger use of our economic and local strengths to attract more spend in Copeland</li> <li>• Stronger physical connectivity</li> <li>• A break in the cycle of intergenerational worklessness</li> </ul>	<ul style="list-style-type: none"> <li>• Developing entrepreneurship</li> <li>• Encourage trades skills and the development of the construction sector</li> <li>• Socio economic activity</li> <li>• Settlement focused developments</li> <li>• Tackling debt and financial exclusion</li> <li>• Diversifying the local economy by playing to Copeland's strengths</li> <li>• Maintaining and building on local business and jobs</li> <li>• Work and skills interventions that prepare local people for opportunities and available jobs</li> <li>• Improved local access to technology/broadband and skills</li> <li>• Tackling worklessness in our urban and rural neighbourhoods</li> </ul>	<ul style="list-style-type: none"> <li>• Technology innovation</li> <li>• Business start-up and growth</li> <li>• Socio economic indicators</li> <li>• Changes in employment, employment sectors and worklessness</li> <li>• Numbers and availability of jobs locally</li> <li>• Skill levels in our economy and communities</li> <li>• Incomes and Debt</li> <li>• Our Copeland economy profile</li> <li>• Broadband and Wi-Fi access</li> <li>• Britain's Energy Coast benefits</li> </ul>

### Working in Partnership

Besides the views of local leaders and people from across the community, evidence about the area, its conditions, problems and prospects from a wide range of sources has informed this strategy. This strategy is developed following a line of partnership activity and continued active involvement. The delivery of this strategy will be undertaken at a range of levels particularly locality, Copeland, West Cumbria or Cumbria. The locality mechanisms agreed under the previous West Cumbria partnership arrangements have been developed as the pillars on which this Plan and the Copeland Partnership are rooted.

(Diagram showing partnership frame to be inputed: )

Partnership - Together we will work in Partnership across Copeland		
We want to see	We will prioritise	We will measure progress in
<ul style="list-style-type: none"> <li>• Strong locality partnerships with plans involving local people in influencing local services</li> <li>• Joint working throughout the public, private and voluntary sectors to deliver best value services that meet local needs</li> <li>• All Copeland parish, town and wards covered by current community plans</li> </ul>	<ul style="list-style-type: none"> <li>• Youth participation</li> <li>• Existing access points to get community, residents and businesses engaged</li> <li>• An annual focus on shared additional action</li> <li>• Business and services providing local opportunity in partnership with schools, providers, childcare, etc</li> <li>• Improved and increased Information</li> </ul>	<ul style="list-style-type: none"> <li>• Involvement from all sectors</li> <li>• Relationships at locality level</li> <li>• Regular performance information to show improvement linked to local priorities and evidence</li> <li>• Community involvement</li> <li>• Delivery against partnership actions</li> <li>• Number of active groups in the area</li> <li>• Use of the Partnership website</li> </ul>

We will measure Partnership performance using:

- A package of indicators setting out improvement areas that all partners in Copeland can focus on delivering against;
- Theme strategies and action plan monitoring;

We will report progress against our priorities through:

- Locality based monitoring;
- An Annual Copeland Progress Report;
- Twice Yearly Copeland Partnership update.

**Copeland's Communities are sustainable through:**

- A flourishing and diverse local economy;
- Communities that work with access to opportunities;
- Places to live, work and play that are affordable, safe and considerate of the environment;
- A well designed and built and natural environment along our coast, in our settlements, across our landscape;
- Improved connections linking people to jobs, health, schools and local services;
- Building on our heritage and community strengths;
- Public, private, community and voluntary services that are appropriate to people needs and accessible to all;
- Inclusive and responsible participation and representation;

**Copeland Partnership Principles:**

- Create added value through focussing partnership work on those problems and issues that no one organisation can solve on its own.
- Aim for excellence through continuous improvement.
- Create a learning culture in how we do things.
- Encourage public engagement and participation.
- Promote equality and diversity.
- Work to create sustainable and cohesive communities.
- Stimulate a facilitating and enabling culture in our organisations.
- Take in to account the aims of other relevant strategies.
- Maximise the potential contribution of the voluntary and community sectors.
