The headlines related to research carried out during April and May 2014 and relate to household across the North of England:-

- 24% of people in debt owe money to a Pay Day Lender or Loan Shark.
- 43.5% of people in debt will take more than 4 years to repay their debts or don't know when they will be paid off.
- The percentage of in-debt households owing more than £2000 has risen to 52.8% (from 44% in the last report Jan to March 2014).
- Average weekly debt repayments have more than doubled to £37.36 per week (from £18.21 nine months ago).
- 12.5% have used a food bank at least once in the last three months.
- Weekly spending on fuel is 9.1% higher than at the start of the study (April 2013), with an average spend of £28.37 per week.
- Spend per person per day on fuel has increased to £4.05 from £1.97 in September 2013.
- Spend on food per person per day has reduced to £2.79 from £3.28 in September 2013.
- 3 out of 10 households spend less than £20 per week on food.
- Average money left after bills has increased slightly but at £2.82 per day across all of the households is not proving to be sufficient to cope with unexpected expenditure.
