

**COPELAND LOCAL DEVELOPMENT FRAMEWORK**

**EXAMINATION OF CORE STRATEGY AND DEVELOPMENT  
MANAGEMENT POLICIES**

# **BOROUGH COUNCIL STATEMENTS: MATTER 12**

**SAVED POLICIES AND MISCELLANEOUS ITEMS**

**March 2013**

The following are interim comments representing the Council's awareness of these issues as we approach the Hearing.

**12.1. Are there any issues associated with saved and/or superseded policies (App.1)?**

No issues have come to our attention. The only policies not superseded are the adopted Local Plan (2006) policies relating to site allocation, which will be replaced by the Site Allocation DPD.

**12.2. Are there any presentational changes to be addressed (e.g. front cover, consequential text changes arising from adoption of DPD, etc.)?**

Section 1 of the plan submitted with modifications (Doc 1.9) contains the changes which we expect to make in the adopted document (these are not included in the Schedule of Minor Modifications).

Other than that the text is written as if it were the finished product, so we anticipate no changes other than those already proposed as minor modifications, put forward as a result of debate at the Hearing, and/or in response to the Inspector's report.

The front cover and introductory page will also have to be amended.

**12.3. Does the Council have a master list of all changes incorporating those originally sought by the Council and those arising during the course of the examination hearings?**

Entering the Hearing, the list forming the Schedule of Minor Modifications formed the base for a master list of changes, formatted to distinguish between those originally sought and those emerging from the hearing sessions.
