

Millom & Haverigg Town Investment Plan

Have you heard about the TIP (that's the Town Investment Plan!)? We already have £500K to:

Upgrade Millom play park so that facilities are easier for residents and visitors to use.

Make a new, accessible cycling, running and walking track to encourage residents to enjoy more activity and exercise.

Celebrate the Poet Norman Nicholson with a digital trail around the town

Make the town more attractive by looking into purchasing dilapidated buildings

We are bidding for £25-million more!
We need your views on the details overleaf, go to:
mytown.communities.gov.uk/town/millom/

Below is the draft vision and strategic framework which community representatives on the Town Deal Board have informed and helped to develop.

Draft vision: Millom will have a revitalised and regenerated Town Centre built on inclusive and sustainable economic growth. We will have a wide range of employment opportunities and progressive education pathways. Residents will enjoy access to an enhanced cultural and leisure offer, supporting community health and well-being set within an inspirational environment.

Draft strategic framework:

1. To protect and enhance natural assets and capitalise on the town's proximity to the Lake District National Park and the coast, to facilitate health and well-being and growth in the visitor economy.
2. To embrace the opportunities presented by clean energy to drive sustainable economic growth.
3. To improve residents' access to employment, training and career opportunities, to raise aspirations and maximise life chances.
4. To provide a range of high-quality and sustainable housing through new build and renewal, to retain and attract residents of all ages to the town.
5. To invest in community health and well-being through recreational and health facilities, open space and active travel networks.
6. To stimulate a diverse range of employment within the town and ensure businesses have the space and support infrastructure to start up, thrive and grow.
7. To encourage an attractive and vibrant town centre with a range of uses set within a high-quality environment which reinforces the town's role as a key service centre.
8. To build on industrial heritage and literary links to underpin an enhanced culture and leisure offer, to attract residents and visitors to participate.
9. To secure high quality digital and transport connections, to enhance competitiveness and inclusion.

We need to hear your views on whether this captures the right vision for Millom. Please complete this one question survey:
