Cremation is normally completed on the day of the funeral, when environmental considerations dictate the cremation may be delayed. No cremation will be delayed more than 72 hours. All metals remaining following cremation will be disposed of in the most suitable manner to reduce the impact on our environment. This will include the sensitive recycling of metals to avoid the use of non-renewable resources and comply with existing legislation. Should you wish to dispose of the metals in any other way then please indicate by ticking the box and metals will be returned to you within the cremated remains or separately from them. ☐
