

## GLASS

What goes in my 'glass' recycling container?

- Bottles of any colour (leave the tops on as these get sorted at the plant and added to metal recycling)
- Jars (Leave the tops on)
- Non-food bottles (eg perfume, aftershave, face creams)

Nothing should have food or cosmetics sticking to it – give it a rinse first.

What shouldn't go in?

NO broken glass (your box is emptied by hand and broken glass is a danger to our crews)

There are different types of glass and they don't all melt at the same temperature. Please don't recycle the following in your box:

- Glass cookware (eg Pyrex)
- Drinking glasses
- Vases
- Microwave plates
- Mirrors
- Light bulbs/tubes
- Window glass

Nail varnish bottles (these are too difficult to remove the contents from)
