

METAL

What can I put in my 'metal' recycling container?

- Drinks cans
- Food tins (place lids inside tin)
- Biscuit tins (including lids)
- Aerosols. These must be empty (remove the plastic cap and recycle the cap with plastics)
- Aluminium foil (scrunch foil together to form a ball)
- Aluminium foil trays (eg takeaway or ready meal trays, disposable roasting tins)
- Aluminium tubes (eg tomato puree - remove the plastic cap)

Nothing should have food sticking to it – please give it a rinse first

What **shouldn't** go in?

- Laminated foil (eg cat food/coffee pouches that spring back when you scrunch them)
- Crisp packets and sweet wrappers
