

Statement for planning application for:

Felling and eco pugging stump of Holly tree – 105 Queen Street, Whitehaven, CA28 7QD

My name is Stewart Henderson currently of Tivoli Group Ltd, I work as the Regional Manager in Cumbria. I have been in the landscape industry for 28 years with over 20 years' experience in the management of trees. We have been asked by Home Group to undertake some work on their behalf at the rear of 105 Queen Street, Whitehaven, Cumbria, CA28 7QD.

I seek permission on behalf of Home Group to carry out the named works below on the area identified as T1 on the Location plan in this application. This application is to fell a mature holly tree and eco plug the stump. The tree is very close to the house which is blocking light on 3 levels of the property, it is extremely close to the property, which is preventing maintenance to the property, being so close to the property the tree could be or in time many cause damage to the property or foundations. There has also been multiple complaints from neighbours as its also spanning into neighbouring properties causing issues with light.

The garden has been left unmaintained by the tenant and the garden has become an eyesore. Works have been started to improve the garden for the good of the neighbourhood.

Hopefully, the felling of the tree will help improve the appearance of the area, improve the quality of life for those living at the properties affected through and increase in light and also, maintenance to the property can be undertaken.

Yours sincerely

Stewart Henderson

Regional Manager
