A1 Drawing Sheet

A vision display of 215 metres is unachievable on this road from the proposed site location due to the hill, bend and existing hedgelines. In mitigation, this road is no longer a through road and whilst it would appear classified as a 60mph carriageway, it has been closed to traffic going to Egremont for some years due to serious bank erosion further north. Above the proposed site entrance the only property access is for Rotherisylke House which in the ownership of the applicant and there is no circumstance whereby traffic will be coming down the road in excess of low speeds.
