PLANNING POLICIES

Planning law requires applications for planning permission must be determined in accordance with the Development Plan unless material considerations indicate otherwise.

Development Plan

Copeland Local Plan 2013 – 2028 (Adopted December 2013)

Core Strategy

Policy ST1 – Strategic Development Principles

Policy ST2 – Spatial Development Strategy

Development Management Policies (DMP)

Policy DM10 – Achieving Quality of Place

Policy DM18 – Domestic Extensions and Alterations

Other Material Planning Considerations

National Planning Policy Framework (NPPF)

Emerging Copeland Local Plan (ELP):

The emerging Copeland Local Plan 2017-2035 has recently been the subject of a Preferred Options Consultation. The Preferred Options Consultation builds upon the completed Issues and Options Consultation, which finished in January 2020. Given the stage of preparation, the emerging Copeland Local Plan 2017-2035 has only limited weight in decision making, but provides an indication of the

direction of travel of the emerging planning policies, which themselves have been developed in accordance with the provisions of the National Planning Policy Framework.

ASSESSMENT

The key issues raised by this proposed are the principle of development, its scale and design and the potential impacts on residential amenity.

Principle of Development

The proposed application relates to a residential dwelling within Distington and it will provide an enlarged kitchen and an additional dining room, utility and shower room. Policy DM18 supports extensions to residential properties subject to detailed criteria, which are considered below.

On this basis, the principle of the development is therefore considered to be acceptable and the extension satisfies Policies ST2, DM18 and the NPPF guidance.

Scale and Design

Policy ST1 and section 12 of the NPPF seek to promote high quality designs. Policy DM10 and DM18 seek to ensure domestic alterations are of an appropriate scale and design which is appropriate to their surroundings and do not adversely affect the amenities of adjacent dwellings.

The proposed rear extension will be relatively modest in scale and appropriately located within the site, behind the main element of the existing dwelling. This will ensure that the proposal appears subservient to the main dwelling and it will not be excessively prominent within the locality. The flat roof design will not be overbearing for the neighbouring properties and it is considered to be suitable for its use. In addition, the choice of materials will match the existing property and therefore it will reflect the character and appearance of the property.

On this basis, the proposal is considered to meet Policy DM18(A) and the NPPF guidance.

Residential Amenity

Policy ST1, Policy DM18 and section 12 of the NPPF seek to safeguard good levels of residential amenity of both the parent property and adjacent dwellings.

Overlooking and overshadowing issues between the proposed extension and the neighbouring properties were considered, although the extension will be relatively modest in scale and the rear extension flat roof design will reduce any potential overshadowing issues. The extension will be appropriately located to the north-west of the adjoined neighbour and it will be stepped away from the boundary by approximately 1.3 metres. This will reduce potential overshadowing issues and no concerns have been raised as part of the neighbour consultation process.

On this basis, it was considered that the proposal will not have any adverse impacts on the neighbours and therefore the proposal is considered to meet Policy DM18 and the NPPF guidance.

	<p><u>Planning Balance and Conclusion</u></p> <p>Overall, the proposed rear extension is considered to be of an appropriate scale and design and will not have any detrimental impact on the amenities of the adjoining properties. The application represents an acceptable form of development which accords with the policies set out within the adopted Local Plan and the guidance in the NPPF.</p>
