Thank you for consulting us on the above application, received 25 September 2024.

Environment Agency position

We have no objections to the proposed development, however we do wish to make the following comments:-

Flood risk standing advice - advice to LPA

The proposed development falls within Flood Zones 2 & 3 which is land defined in the [planning practice guidance](#) as being at risk of flooding.

We have produced a series of standard comments for local planning authorities and planning applicants to refer to on 'lower risk' development proposals. These comments replace direct case-by-case consultation with us. This proposal falls within this category.

These standard comments are known as Flood Risk Standing Advice (FRSA). They can be viewed at <https://www.gov.uk/guidance/flood-risk-assessment-for-planning-applications#when-to-follow-standing-advice>.

We recommend that you view our standing advice in full before making a decision on this application. We do not need to be consulted.

- on or within 8 metres of a flood defence structure or culverted main river (16 metres if tidal)
- on or within 16 metres of a sea defence
- involving quarrying or excavation within 16 metres of any main river, flood defence (including a remote defence) or culvert

For further guidance please visit <https://www.gov.uk/guidance/flood-risk-activities-environmental-permits> or contact our National Customer Contact Centre on 03708 506 506. The applicant should not assume that a permit will automatically be forthcoming once planning permission has been granted, and we advise them to consult with us at the earliest opportunity.

Yours sincerely,
