Dear Sir or Madam,

**Planning consultation: CONSTRUCTION OF A NEW 465SQM AGRICULTURAL BUILDING TO PROVIDE A COVERED SLURRY STORE**  
**Location: LOW SHAW FARM, THE GREEN, MILLOM**

Thank you for your consultation on the above dated 27 November 2025 which was received by Natural England on 27 December 2025

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

**SUMMARY OF NATURAL ENGLAND'S ADVICE**

Natural England advises that the potential for air quality impacts arising from this development needs to be assessed. Natural England refers your authority to Standing Advice ['Air pollution and development: advice for local authorities. How to assess sector-specific planning applications that could affect air quality on a protected site'](#).

Based on the plans submitted, no other environmental impacts have been identified that will have significant impacts on statutory protected sites.

Natural England's generic advice on other natural environment issues is set out at Annex A.

**Statutory Protected Sites Advice**

Natural England advises that the potential for air quality impacts arising from this development needs to be assessed. Natural England refers your authority to Standing Advice *'Air pollution and development: advice for local authorities. How to assess sector-specific planning applications that could affect air quality on a protected site'*. This standing advice is Natural England's formal statutory advice and is a material consideration. It provides decision makers with the information needed to fulfil their statutory duties when making decisions on planning applications with potential air pollution impacts.

An overall conclusion regarding impacts on statutory protected sites<sup>1</sup> must take into account the standing advice for air pollution. This will be for your authority to determine.

Based on the plans submitted, no other environmental impacts have been identified that will have a significant impact on statutory protected sites.

For any general enquiries on Natural England's standard advice letters and our Standing advice '*Air pollution and development: advice for local authorities. How to assess sector-specific planning applications that could affect air quality on a protected site*', please send your correspondence to [LPA-AQStandingAdvicequeries@naturalengland.org.uk](mailto:LPA-AQStandingAdvicequeries@naturalengland.org.uk).

We aim to respond within 10 working days.

Please note we will not respond to case specific queries. If the proposal is not in a category which is covered by the standing advice you should send it to [consultations@naturalengland.org.uk](mailto:consultations@naturalengland.org.uk).

Yours faithfully

Julian Clarke  
Consultations Team
