

1FR Schwegler Bat Tube

The 1FR Bat Tube is designed to be installed on the external walls of buildings, either flush or beneath a rendered surface. This makes it ideal for situations where you wish the box to be discrete as only the entrance hole will be visible. It can also be painted to match your building with an air permeable paint if desired.

The 1FR is specifically designed to meet the characteristic behavioural requirements of the types of bats that inhabit buildings. It has an integrated wooden panel onto which bats can cling and a ridged entrance slope which makes it easy for them to enter and leave the box safely. The design maintains excellent climatic conditions inside providing bats with a safe and stable environment in which to roost and it requires no maintenance because droppings fall out of the entrance ramp.

To allow access into existing cavities in buildings use the 2FR Bat Tube (<https://www.nhbs.com/2fr-schwegler-bat-tube>).

Specification

- * Material: Woodcrete with integrated wooden panel
- * Height: 47.5cm
- * Width: 20cm
- * Depth: 12.5cm
- * Entrance dimensions: 15 x 9 x 2cm
- * Weight: 9.8kg

Schwegler Bat Box IFF

A practical addition to the Schwegler bat-box range, designed specifically for hanging on buildings, large trees etc. This 1FF Bat Box is spacious enough to allow colonial bats to use as either a bat roost or nursery. The 1FF Bat Box is open at the bottom which allows droppings to fall out, it doesn't need cleaning which makes it especially suitable for hanging in inaccessible places such as high up on buildings.

To compensate for fluctuations in temperature in spring and autumn, the schwegler 1FF Bat box has a rough wood rear panel. Depending on their individual temperature requirements, the bats can choose between the cooler wood-crete or the warmer wooden panel. Ideal for conservation projects and study of Bats, the entire front of the bat box can easily be swung open for inspection purposes.

Made from wood-concrete this bat box has a coated wooden panel and galvanised steel hanger, it also comes with a schwegler 25 year guarantee.

Schwegler Bat Box IFF Specifications:

- Dimensions: 430H x 270w x 140D mm
- Entrance: hole 120 x 240mm
