PROPOSED CAR WASH PRESTON ST WHITEHAVEN ON LAND ADJOINING
ASDA STORE**

Design Report

CAR PARKING

Some car spaces are provided on site for staff parking(one space), and occasional parking of clients cars who wish to shop in the town but have their car washed and valeted while doing so.

The cars coming to the site to be washed will proceed in line to the washing area, then after cleaning exit the site via the north access on to Preston Street.

DRAINAGE

Surface water generated from the washing of cars will fall via graded surfaces to a New ACO drain which will then be directed/routed to an existing SW manhole already located on the site. No water will be discharged on to the public highway from the site.
