

UPDATED INFORMATION REQUEST

As requested on the 15/25 I am providing more information for the change of use for 32 Snaefell Terrace Seacliff Whitehaven Cumbria CA28 9QF.

The change of use applies to the garage only. The garage/business would relate solely to myself. This would not be a place of employment of anyone else. The only person working in the garage/business would be myself.

The garage/business would operate on a booking system by appointment. I would have a 15 minute space between each appointment. This would give each client/customer time to leave before the next client/customer arrives. This would also help with the flow of parking on the drive. I would offer a walk in service if I had no appointment booked or a client/customer arriving. If a walk in client/customer arrives when I have a client/customer in the shop with an appointment I would advise them when I was free and offer them an appointment.

the future in mind, uniquely negating the need for the traditional steel reinforcing systems, the benefits being an industry leader in energy efficiencies together with a safer future for the environment, a lead free system with unique PVC inserts that have the same tensile strength of reinforcing

IMPRESSIONS

(<https://pearlwindows.co.uk/>)

Whether you are looking to add some character to your home, or are looking for some traditional style, Pearl Window Systems is sure to have the perfect solution.

Pearl Window Systems's uPVC residential doors are available as opening in or opening out, and are designed to match perfectly with the window range to create a coordinated and attractive appearance for your home.

With matching sidelights to let in more light, decorative glazing options, handles, letterboxes and knockers, you can personalise your front door to your exact preferences adding the personal touch to your home.

Pearl Window Systems residential doors provide both a great aesthetic and are lead-free, and have also been designed to offer excellent levels of security.

FULLY ACCREDITED

Security is a vital component of all Pearl Window Systems products and our doors are fully accredited to meet the appropriate standards, including upgrades to PAS24:2016 and Secured by Design, and are also fully compliant with the latest relevant sections of the Building Regulations.

AT A GLANCE

There are many options available to ensure the perfect door for each unique customer. Choose from chamfered or sculptured profile, double glazing (28mm) or triple glazing (40mm), with standard four chamber or EnergyPlus six chamber profile. Combine this with a choice of threshold options, disabled ramp thresholds, Part M building compliant or just a simple low PVC threshold, not forgetting the wide range of finishes together with stunning hardware options.
