

AF057 Hedgerow Removal Notice Overview

Aerial imagery of mature hedgerow dated 2001 (25yrs) indicates the hedgerow in question is more than likely greater than 30yrs old

SD 15463 83457

Proposed removal of c.10m of hedge to establish pathway for clear span bridge to be laid over unnamed drainage channel. The bridge will facilitate access for plant and vehicles to reach towers AF055 and AF056.

Section proposed to be removed was selected to make use of defunct zones in the existing hedge line.

30m length of hedge when surveyed contains seven woody species (hawthorn, blackthorn, hazel, holly, honeysuckle, brambles and dog-rose).
