RE: W.R.Richardson Ltd

To whom it may concern,

We have lived at the Greyhound House Winder for the last 40 years. For over 20 years Winder Brow Farm has been owned & ran as a business by W.R. Richardson & sons.

For approximately the last 15 years the business has operated a recycling facility involving the crushing of waste concrete etc. As one of the nearest properties to the area, we have never had an issue with noise, dust or operating times. The area is kept as visually tidy as possible within the remit of the business. Trees have been planted to shield the work area & potential noise.

In our opinion to have a business recycling waste products is a better solution for the environment than sending products to landfill.

Yours Sincerely,

Mr & Mrs. E. Stephenson

Re: W. R. Richardson Ltd

To whom it may concern,

We have lived at Quarry Bank Farm since the year 2000. For most of those years Winder Brow Farm has been owned and ran by W. R. Richardson Ltd as the base for their building business.

For well over 15 years now they have operated a recycling facility onsite which involves the use of crushing waste concrete etc. We live adjacent to Winder Brow Farm and have never had any issues with noise, dust or operating times. The site is very well maintained, trees have been planted to shield the working area and any potential noise.

We have no issues whatsoever with the site, and with the environment being such a big issue in today's society, we feel recycling waste products rather than sending to landfill is a far better option.

Yours sincerely

Mr & Mrs CWJ Clark-

Quarry Bank Farm
