## Application for Tree Works: Works to Trees Subject to a Tree Preservation Order (TPO) and/or Notification of Proposed Works to Trees in a Conservation Area

Town and Country Planning Act 1990 (as amended)

### Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

### Tree Location

Please provide the address of the site where the tree(s) stands (full address if possible)

Number

Suffix

Property Name

1 Fleatham Gardens

Address Line 1

High House Road

Address Line 2

Address Line 3

Cumberland

Town/city

St Bees

Postcode

CA27 0BX

Description of site location must be completed if postcode is not known:

Easting (x)

297279

Northing (y)

511822

**If the location is unclear or there is not a full postal address, describe as clearly as possible where it is**

(for example, 'Land to rear of 12 to 18 High Street' or 'Woodland adjoining Elm Road')

## What Are You Applying For?

Based on the type of work proposed and the location and protected status of the trees involved, there are various details and supporting information that will need to be supplied in order for the Local Planning Authority to determine the application.

**Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?**

- ☐ Yes  
☒ No

**Are you wishing to carry out works to tree(s) in a conservation area?**

- ☒ Yes  
☐ No

### Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order.

A sketch plan is also advised when notifying the LPA of works to trees in a conservation area ([see guidance notes](#)).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for the question 'Identification of Tree(s) and Description of Works')?

- ☒ Yes  
☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application

Application to remove birch tree located at the border between 1 Fleatham Gardens and 2 Fleatham Croft on the grounds that it constitutes a nuisance to the residents of 2 Fleatham Croft.

#### Context.

Recent inspection of the tree by Bruce Hatton (Arborist) has identified upper crown dieback with minimal deadwood, likely due to root damage, soil contamination around the roots or a noxious substance contacting the vascular system. Bruce Hatton has recommended removal of the minor deadwood alongside flushing of the soil around the roots to remove any possible contaminants, with a view to reassessing at the end of the summer. Report attached, reference PP-14141006/001

In recent weeks, the occupants at 2 Fleatham Croft have contacted us to express serious concerns regarding the proximity of the tree to their property (photos included in this application, reference PP-14141006/003 & PP-14141006/004) and their anxieties around the potential of the tree/limbs to fail and cause damage to their property. We have observed high winds recently and our neighbours have reported that some of the limbs of the tree have reached as close as approx. 1 metre from their 1st floor living room window.

The birch was previously located very close to a sycamore and hence the birch has grown further toward 2 Fleatham Croft to afford itself the light that it needed, prior to the relevant approval being sought and the sycamore being removed. It can be seen in the attached photos that the tree is visibly leaning over the boundary towards 2 Fleatham Croft and would be closer to their property than would be expected if the birch had not been dwarfed by the now felled sycamore tree.

Although Bruce Hatton has not cited any immediate or serious concerns regarding health of the tree, there is still potential for the aforementioned works to be unsuccessful and the health of the birch may continue to deteriorate.

We would therefore like to remove the birch to alleviate the concerns of our neighbours and to negate future works that may eventually include removal, if the recommended work the arborist has cited didn't lead to recovery of the tree.

## Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out

Removal of birch tree no 1 as referenced on the sketch PP-14141006/002

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see below for sketch plan requirements).

Please provide the following information:

- Tree species
- The number used on the sketch plan; and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) – Whole crown reduction to 12m above ground level, to provide sufficient clearance to property.

### Sketch plan requirements

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
  - mark and name surrounding roads
  - sketch in buildings, including adjoining properties
  - add house numbers or names
- mark the position of the tree(s) to which you want to carry out work and identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
  - marking all trees on the plan, but only numbering those to which you want to carry out work
  - showing the approximate distance between the application tree(s) and buildings
  - adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

### Tree Ownership

Is the applicant the owner of the tree(s)?

- ☒ Yes  
☐ No

### Authority Employee/Member

**With respect to the Authority, is the applicant and/or agent one of the following:**

- (a) a member of staff  
(b) an elected member  
(c) related to a member of staff  
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes  
☒ No

### Declaration

I/We hereby apply for Tree works: Trees in conservation areas/subject to TPOs as described in the questions answered, details provided, and the accompanying plans/drawings and additional information.

I/We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.

I/We also accept that, in accordance with the Planning Portal's terms and conditions:

- Once submitted, this information will be made available to the Local Planning Authority and, once validated by them, be published as part of a public register and on the authority's website;
- Our system will automatically generate and send you emails in regard to the submission of this application.

☒ I / We agree to the outlined declaration

Signed

Lindsay Connor
