Existing materials and finishes: Proposed materials and finishes: Ground Floor Glazing: Installation of full-height, shatter-resistant bomb blast protection film to all ground floor glazing, enhancing security and safety measures in line with current best practices. Lobby Area: Application of new privacy manifestations/window graphic with a gradient fade transitioning from opaque to 75% opacity above 1800mm. Artwork to be developed by Whitehaven Community Trust. Main Entry Door (Existing): The fully glazed entry door will be retained. A dark grey solid colour manifestation will be applied to the door frame to clearly indicate the building's main entrance, in accordance with PAS 6463 guidelines for neurodiversity-friendly design. In addition, 50mm diameter dark grey circular manifestations will be applied to the glazed door at appropriate heights to ensure visibility and compliance with Approved Document Part M, Volume 2 (Buildings other than dwellings). Accessible WC: Installation of a solid black colour manifestation to the glazed elements of the Accessible WC. This treatment is intended to obscure the view of the plumbing and sanitaryware behind the IPS (Integrated Plumbing System) unit. Treatment Room: Application of a full-height opaque manifestation to all glazing within the Treatment Room, ensuring maximum privacy for users.
Type: Walls
Existing materials and finishes:
Proposed materials and finishes: This proposal is to infill the existing cash machine openings using masonry to match the existing wall. The wall will then be overclad with a treated timber frame and Rockpanel cladding boards. The cladding will be finished in mid-grey to match the existing painted façade.

Biodiversity net gain Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development. Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required. Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply? Yes ✓ No Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope. If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption). You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one Reason biodiversity net gain does not apply: Development subject to the de minimis exemption (development below the threshold) What best describes the size of your site?: Under 25 square metres Please justify the reason why biodiversity net gain does not apply: The existing building occupies the entire site area, with its external walls built directly onto the site boundaries and facing the public highway. The site is situated within a town centre/high street context and has no associated land or external space. Due to the absence of any soft landscaping or open ground, there is no opportunity for on-site biodiversity enhancements. As such, the existing conditions do not support the inclusion of biodiversity measures. Note: Please read the help text for further information why developments may be exempt or not in scope. Foul Sewage Please state how foul sewage is to be disposed of: ✓ Mains sewer ☐ Septic tank ☐ Package treatment plant Cess pit Other Unknown Are you proposing to connect to the existing drainage system? Yes ○ No ○ Unknown If Yes, please include the details of the existing system on the application drawings and state the plan(s)/drawing(s) references New below-ground connection will be made into the main sewer to accommodate a ground floor accessible WC, a beverage bay, and a wash
