## **Description of the Proposal**

Please note in regard to:

- Fire Statements From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. <u>View government planning guidance on fire statements</u> or <u>access the fire statement template and guidance</u>.
- **Permission In Principle** If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or <u>view government planning guidance on determination periods</u>.

## Description

Please describe details of the proposed development or works including any change of use

To accommodate the forthcoming new community leisure facility located within the Millom School Campus it is proposed to construct a new access road from Salthouse Road to the facility.

The current proposed access for the facility is through an existing single lane road down the side of the school from the main car park. Users of the facility will park at the main car park and also walk up this existing access road. Although access is limited to maintence and disabled parking to the front of the facility this still means pedestrians and vehicles require negotation and some shared surface elements. To fully eliminate this risk the proposed access road is requested.

The new access road will do the following;

- Improve the existing 'field maintenance' junction, tightening its opening and improving visibility splays.
- Retain access links from the car park and school to the playing fields.
- Link with a raised crossing and the wider connective town improvements that are programmed for Salthouse Road
- Create a new shared pedestrian/cycle path 3m wide from Salthouse to the leisure facility.
- Create a pedestrian-only route from the car park to the leisure facility; however, drop bollards will be positioned here to allow maintenance access for the school building.

Supporting information requirements
Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.
Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.
Your local planning authority will be able to advise on the content of any assessments that may be required.
