## Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

☐ Yes

☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

### Reason biodiversity net gain does not apply:

Self-build and custom build development

### Are you building more than nine houses?:

No

### Is the total size over 0.5 hectares?:

No

### Do all buildings meet the definition of self-build or custom housebuilding as set out in [section 1\(A1\) of the Self-build and Custom Housebuilding Act 2015](#)?:

Yes

### Does your Local Planning Authority require applicants for self-build and custom-build development to evidence their eligibility?:

No

### Please justify the reason why biodiversity net gain does not apply:

The application site is an existing industrial estate which is all concrete hardstanding. Although the development is over 25sqm there is no grassland or existing habitat to be lost with the new proposal.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

Generally positive in principle as the proposed development would increase the amount of rentable industrial units in the area, increase employment, and visually improve the aesthetics of the existing building. Additional advice received from highways suggested that the remaining space for vehicular turning post development would be adequate.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
