Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

Yes

No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

The proposal seeks to improve the layout of the existing bungalow. The bungalow has a large area of garden surrounding the home and it currently lacks connection to the garden and light entering the interiors. A larger utility, kitchen/ dining space is needed along with a study which currently occupies an existing bedroom.

The architectural strategy is not to introduce a large massing to the rear but two smaller pitched extensions that are subordinate to the existing body of the bungalow. The two rear extensions separated by a courtyard garden.

The rear extensions look to sit below the ridge line of the existing bungalow and keep within the 4m maximum height for permitted development at 3.95m for the kitchen and 3.58m for the study. Both extensions align with existing bungalow walls to prevent the front elevation from changing.

Both rear extensions project to a maximum 4m and due to the size of the garden the proposal does not effect neighbouring rights to light and overlooking.

Does the proposal consist of, or include, a change of use of the land or building(s)?

Yes

No

Has the proposal been started?

Yes

No
