Details of the pre-application advice received

An email from Samuel Woodford on 22nd April, following the meeting, stated:

"I've been advised by my colleague that planning permission will be required for this work. Reviewing again the document you previously sent, I've concluded that there is no need for listed building consent in this case as the basement level cabling is all quite superficial and won't have an effect on the significance of the building..."

You'll need the usual supporting docs – location and block plan along with some details of the charge points. The document you previously sent showing the route of the cabling and steps needed to get it outside would be very helpful too."
