Details of the pre-application advice received

Planning permission will be required for the siting of a storage container on this car park. Based on a review of the site and the justification for the proposed container, the Local Planning Authority is likely to be able to support this proposal for a temporary period to reflect the requirements of the business. This requirement should be clearly set out within a planning statement to support this application. I would however advise that the proposed container should be sited to minimise the impact on the visual amenity of the surrounding area and should not affect the existing car park facilities for this site.

### 24. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (b) an elected member

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
