Proposed Demolition Works

Please describe the building(s) to be demolished

Fleming Hall Farm building adjacent to Fleming Hall Farm House, and existing lean-to extension.

Please state the reasons why demolition needs to take place

Buildings are structurally inadequate and in a very poor condition. See structural survey for more detail.

Please describe the proposed method of demolition

The building will be taken down by mechanical means and loaded into wagons or equivalent for removal from site. Best practice methods will be followed with regards to noise, dust control, etc.

See demolition method statement for more detail.

How and where would spoil/rubble be disposed of?

All materials will be removed from site and recycled wherever possible. It is not anticipated that there will be any generation of dirt on the adjacent roads, however the appointed contractor will allow for sweeping the road on a reactive basis as required.

All contractors that carry or collect waste from the site will be required to have a waste carrier's license and all waste disposal facilities should have a waste management licence or permit unless they are exempt. All waste transfers must be supported by the correct documentation either a controlled waste transfer note; or in the case of hazardous waste, a consignment note.

See demolition method statement for more detail.

Please provide details of the proposed restoration of the site

TBC

When do you expect the works to commence (date must be post application submission)?

01/08/2022

When do you expect the works to be completed (date must be post application submission)?

14/08/2022
