## Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

### Description

Please describe details of the proposed development or works including any change of use

Existing building had planning permission to convert into 3 off one bedroom flats, now expired. Existing building is currently the layout as left by The Freemasons who converted it in 1945, except all Masonic regalia (seating, temple, suspended ceilings) has been stripped out by previous owners.

Additionally, previous owners have fitted all new double glazing throughout (with fire escape provision), had the entire roof re tiled and have re rendered all elevations of the building.

Currently I believe the building has permission to be a single dwelling.

It is proposed to retain the ground floor as a parking garage, with the re instating of an existing garage door that had been blocked up. This will provide 2 parking spaces for the proposed second floor flat, and 6 parking spaces for the 2 large first floor rooms.

First floor to retain the 2 large rooms (as used by the Freemasons) as private artist spaces for the creation on art works, film projects and the like. The smaller peripheral rooms to be retained as a kitchen with office and changing room. There is also a WC accessed from the first floor landing, this will be retained.

The second floor comprises 3 rooms, a lounge, kitchen and bedroom. This will be refurbished and an en suite added to create a 1 bedroom flat for holiday letting purposes.

## Existing Use

Please describe the current use of the site

Currently the site remains empty although some art projects have used the spaces on the first floor. Remedial work has been undertaken to stabilise the building including fixing a hole in the roof tiles which was letting in considerable amounts of rainwater. Also, an internal cast iron downpipe, which drains rain water from the roof valley into the ground floor drains, was rusted through and causing severe soaking of the internal brick work. This has been replaced with a pvc pipe and the water damage has been rectified. The building is now water tight and dry. The gutters to the front of the property were also worked on as they had been incorrectly fitted and rain water could leak from the back of the gutter down the wall.
