Details of the pre-application advice received

A pre-application consultation letter and copy of the proposal drawings were sent to the Local Planning Authority by email on 13/04/2023.

A response was received from Chloe Unsworth on 24/04/2023, outlining the relevant policies and confirming:

“As the proposal will upgrade existing equipment and it will not be higher than the top of the existing structure, this proposal is likely to be acceptable.

Given the nature of the heritage asset, the Conservation Officer raised some concerns with drilling through masonry and mounting things to masonry.”

To confirm, the proposed works do not require any drilling into the masonry. The replacement antennas will be located on upgraded support poles which will be fixed to existing clamps and plates. The replacement GRP louvres will slot into the existing louvre locations. The proposed GPS node will be mounted off an antenna support pole and will sit on the exterior of the building via a slot in the louvres. The proposed equipment cabinets will be bolted to the existing steel grillage floor within the tower.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
