(All sales are subject to Blue Light Safety Ltd.'s terms and conditions, quotations are valid for a period of 3 months.)

The Terms and Conditions document is available upon request.

Please see page 5 for more details if you do not consider this project to be standard rated VAT (20%) – i.e. if you consider that the Domestic Reverse Charge VAT applies, or if you consider that this project qualifies for zero or reduced rated VAT. If we are not advised otherwise, we will assume that standard 20% VAT applies to this project.

Please note: Blue Light Safety Ltd have designed this specification proposal from information obtained from the client; we do not guarantee that this specification proposal will be accepted or meet a particular standard. It is the client's responsibility if you decide to go ahead with the installation of Automist for your development to ensure that you have obtained (written/email) confirmation of approval for the design/specification proposal from the approving authority (Building Control/Local Authority) before commencing any Automist work.

Pre-Installation Requirements

This page contains a link to the pre-installation guide which explains everything that is required from you before installation of the system.

To Summarise, you will need the following:

- ✓ A water supply for the pump unit
- ✓ Electrical supply for the pump
- ✓ Installation of the high-pressure hose(s)
- ✓ Installation of the cable(s)
- ✓ Installation of backboxes

[Click here to view and download the pre-installation guide](#)

If you would prefer to not complete your own pre-installation works then please contact us and we can discuss providing this service for you.

VAT

Blue Light Safety Limited is both VAT & CIS registered.

Please advise us if the Domestic Reverse Charge applies to this project, and if so supply your VAT & CIS registration numbers and confirmation that you are NOT the end user/intermediary supplier in this project and that you are NOT selling or letting a newly completed building.

Please note that zero-rated projects are outside the scope of the VAT Domestic Reverse Charge. If you advise us that the Domestic Reverse Charge applies, we will assume this is standard rated Domestic Reverse Charge unless you notify us that it is reduced rated.

If you consider this project is a new build residential project qualifying for 0% VAT, or a conversion qualifying for 5% VAT then please notify us and provide supporting documentation. Please note that 0% VAT projects are outside the scope of the Domestic Reverse Charge. If we are not notified otherwise, we will assume that standard 20% VAT applies to this project.

Our quotes include default 20% VAT, and any alterations to the standard 20% VAT are to be agreed in writing (via email) with our accounts department (accounts@bluelightsafety.co.uk).

Payment Terms

60% non-refundable deposit payable upon order.

Balance payable upon completion of practical works. Following final payment, a certificate of installation and warranty will be issued.

This Quotation is subject to the Minimum Requirements detailed in the **Pre-Installation Minimum Requirements** document below.

(All sales are subject to Blue Light Safety Ltd.'s terms and conditions, quotations are valid for a period of 3 months.)

The Terms and Conditions document is available upon request.

Please see page 5 for more details if you do not consider this project to be standard rated VAT (20%) – i.e. if you consider that the Domestic Reverse Charge VAT applies, or if you consider that this project qualifies for zero or reduced rated VAT. If we are not advised otherwise, we will assume that standard 20% VAT applies to this project.

Please contact us if you have any queries regarding this quote.
