Dear Oli

PLANNING CONSULTATION – SPRINKLERS

APPLICATION NUMBER:

PREMISES: Civil Nuclear Constabulary Training Facility, Calderbridge, Seascale, CUMBRIA, CA20 1DW

Following examination of plans in connection with the above application, lawful development certificate for installation of 15 number 22kw dual EV chargers and a DC 160kw dual super charger with arm swings and an external BESS system (120.5kwh) and GRP enclosure Civil Nuclear Constabulary Training Facility, Calderbridge. I have to inform you that the Fire Authority has no objections to this application.

However, the applicant should make themselves familiar with the National Fire Chiefs Council

[Grid scale energy storage system planning - Guidance for fire and rescue services](#) and

[Battery Energy Storage Systems \(BESS\) Position Statement](#)

If you would like to discuss this or any other matter of fire safety, please contact me at the above details.

Yours faithfully

Samuel Starmer
Fire Protection
