1 chimney pot + mini euro cowl to be fitted for flue in office
store No 2. on plan Ground Floor

THE MINI EUROCOWL

The **Mini Eurocowl** is the answer to all your chimney problems.

Do you live in an area within reach of the coast? Surrounded by hills? Susceptible to high winds? Or do you have an uneven roof pitch?

The Mini Eurocowl comes with an added specialism in dealing with downdraught issues. Deliberately designed to cure smoky fireplaces & stoves. It does this by directing wind across the chimney pot as opposed to down and into the flue. Whilst enabling the harmful emissions to escape freely out of the top.

The design also protects the chimney from rain. The dome top covers standard chimney pot openings. As a result, the rain will run down onto the flange and away from the flue. As opposed to coming down the flexible flue liner. Driving rain from the side is kept to a minimum with the outer skirt protecting the sides. A bird guard mesh is available separately to prevent smaller birds from entering.

The Mini Eurocowl is the most versatile anti-downdraught chimney cowl. It can be utilised with the [Euro Twinwall Adaptor](#) and the [Euro Pot Hanger Adaptor](#). The [Mini Hanging Eurocowl](#) makes it part of the Pot Hanging family.

Eurocowl strongly suggests fitting the stainless steel version when burning smokeless & other solid fuels. It is also recommended in coastal areas or areas that are exposed to extreme weather.

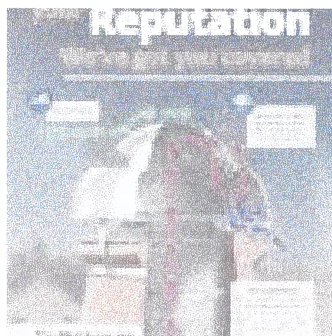

Available in 316 stainless steel for solid fuels, gas & oil and in a choice of our standard 5 colours. It can be fitted with a hook bolt kit or the more popular jubilee band and straps. The Mini Eurocowl covers pot sizes 125 mm-250 mm.

last.

AVAILABLE IN THE FOLLOWING NATURAL OR PAINTED FINISHES: Colours are for illustrative purposes and may differ from actual products.

Terracotta	Cotswold Stone	Black	Sienna	Natural
------------	-------------------	-------	--------	---------

PLEASE NOTE – If you are purchasing this as part of a Twinwall Adaptor or a Pot Hanging Adaptor assembly, you do NOT need to order one of these as well.
