Good afternoon Christie

Following a site visit, and discussion with the applicant, there are no objections to this proposal from an Environmental Health perspective.

If there is external lighting provided to the new building, you could consider the following condition on this –

- Artificial Lighting (external) - Artificial lighting to the development must conform to requirements to meet the Obtrusive Light Limitations for Exterior Lighting Installations for Environmental Zone E2 contained within the Institute of Light Engineers Guidance Notes for the Reduction of Obtrusive Lighting GN01 / 21

Reason: In order to safeguard the amenities of nearby residential occupiers.

Kevan Buck
