INSTALLATION OF STAND-ALONE POLE MOUNTED SOLAR PANELS (30 PANELS)

Further to the above planning application.
There are no objections in principle to this development from Environmental Health.
Noise disturbance from tonal hum off the inverter units can be a potential issue, though the nearest noise-sensitive dwelling (excepting that of the applicant) is almost 100 m to the north west.
However any further details that the applicant can provide on the inverters (type, cabinet siting and arrangement, noise output) would be welcomed to provide assurance against noise nuisance.
