Good morning

There are no additional comments in relation to the above, to those sent during June 2023 as below, the condition still applies.

Thank you.

Regards

Jane

RE: *ROTHERSYKE HOUSE, EGREMONT

Good Afternoon

Thank you for the opportunity to comment on the above planning application. This response from the Joint Emergency Management and Resilience Team relates to emergency planning arrangements in the unlikely event of an incident occurring at Sellafield Ltd. The Sellafield site is currently covered by the provision of the Radiation (Emergency Preparedness and Public Information) Regulations 2019.

There are no objections to the proposed works.

However it should be noted that the location of the property is situated within an area outside the site which, in liaison with Sellafield Ltd and the Office for Nuclear Regulation, special arrangements are made for residents/business premises, this area is referred to as the Detailed Emergency Planning Zone (DEPZ). As a direct result particular attention is paid to ensuring that people are aware of the appropriate action to take in the event of an incident at the Sellafield site.

Condition – that the applicant contact the Joint Emergency Management and Resilience office via emergency.planning@westmorlandandfurness.gov.uk to ensure information about the business can be captured and the Sellafield Off Site Emergency Plan updated accordingly.

In view of the fact that this application could increase the number of persons in the area (including trade people) I would be grateful if you could, in the event of the application being granted, also advise the applicant to liaise with this office via emergency.planning@westmorlandandfurness.gov.uk to allow for further discussion to ensure the applicant and their trades people/contractors plus paying guests are aware of the appropriate information and actions to take should there be an incident at the Sellafield site.

Kind Regards

Rachel Woodward, Emergency Planning Officer
