CONSULTANTS REPORT

DESCRIPTION OF PROPOSAL

APPLICATION TREE NO.	SPECIES	PROPOSED WORKS
T1 & T2	2x Eucalyptus	Dismantling of two eucalyptus trees situated within a Conservation Area.
REASON		
'T1 & T2, Eucalyptus, both have Honey fungus present with visible signs of root and butt decay. T1 has already partially failed and is supported by the garden fence. I propose to dismantle both trees.'		

DISCUSSION

The trees are in the mature age category and show signs of normal vitality.

From the Cumberland Council website, the site falls within the Whitehaven Corkickle Conservation Area. And a Tree Preservation Order (TPO) does not protect the trees.

We consider the work detailed in the application reasonable to prevent the trees presenting a risk of damaging property or causing harm.

Our TEMPO assessment (page 2) shows the trees do not merit a TPO.

RECOMMENDATIONS

Inform the applicant they can carry out the work in the notification or wait for the six-week determination period to lapse.
