Dear Mrs Morrison,

PLANNING APPLICATION – INSTALLATION OF 1NO. SITE SIREN (16M HIGH COLUMN)

Sellafield Ltd is hereby applying for full planning permission for the installation of 1no. site siren (16m high column) at a location within the Sellafield main site. The proposed site siren will effectively replace an existing site siren, granted planning permission by Copeland Borough Council in 2009 (app ref: 4/09/2197/0), which is no longer fit-for-purpose in its current location due to its positioning relative to new construction activities.

The proposed site siren will perform an important safety function in the event of a nuclear incident and its new location has been chosen to ensure there is adequate coverage of the audible warning system to personnel working in the south eastern area of the main site.

The following electronic files have been prepared in support of the planning application:

- Completed Application Form
- Site Location Plan (drawing no: 1BE 3032298, scale 1:5000@A1)
- Block Plan (drawing no: 1BE 3032303, scale 1:500@A1))
- Site Siren Drawing (drawing no: BE 3081663, scale 1:100@A4)
- Design and Access Statement (including Noise Appraisal)
- Ecology Statement

Please find enclosed for your consideration.

The appropriate planning fee of £234 has been sent under separate cover.

Please send all planning enquiries and correspondence to the Sellafield Ltd Development Control Team at development@sellafield.co.uk

Yours sincerely

p.p. Martin Chown
Chief Executive Officer
Sellafield Ltd
