I write as Headteacher of Millom School in support of the planning application for lights on the track.

The track significantly improves the sports facilities at the school as it provides an all-weather running surface for students and increases the use of the playing fields by our students, particularly in the winter months. The lights will obviously be a useful addition to this facility.

The provision of the lights on the track will also provide the use of an additional facility to the wider community in Millom and the surrounding area.

Yours faithfully

M D Savidge
Headteacher
