Dear Chloe,

Trees at Egremont Castle

Please find attached the tree works application for work to be carried out at Egremont Castle.

In additional to this, whilst on a site visit to the Castle, one of the neighbours in a house adjacent to the Castle, outside of the castle grounds on the bank, pointed out that he believes a tree survey has been done on the two ash trees that are on the bank that have been condemned. One presents no danger, but the other is heavily weighted towards the house and one limb has already snapped off.

We would be happy to carry out this work at the same time as the work applied for in the attached application if you wanted it done at the same time. We would just need a PO and address of where to send an invoice. A price could be agreed at a site meeting.

Yours Sincerely,

Alan Sharpe  
Director
