

**Crow Park - Tree safety work required 6 December 2024 HS**

(From surveys 9th August &amp; 30th October 2024 HS)

All trees marked with pink spot unless otherwise indicated.

Map Ref	Number of Trees	Species	Other Tree Species/Multiple Species	Height (m)/DBH (cm)	Action Required	Operational Constraints
T1	4	Ash		15m 30cm approx dbh	All have dieback to some extent, up to 30%. Fell all - they are a clump, many have pruning wounds and next to v busy road. Only 1 tree is marked.	Highway
T2	1	Ash		8m, 25cm dbh	Dieback - fell. Tree not marked but elder adj path has pink spot.	Footpath
T3	1	Oak			Pollard oak and adjacent trees - prune back from road to maintain highways clearance.	Highway
T4	3	Other/Multiple	2 willow, 1 hawthorn	Small	Trees are close to touching house - fell.	Adjacent property
T5	6	Other/Multiple	Various		Several minor tree branches resting on 10ft high boundary wet stone wall. Remove branches to prevent damage to wall, prune at least 2m back or to main stem of tree. Not all branches marked.	Adjacent property
T6	1	Pine		47 & 50cm dbh, 15m high, twin stem Lodgepole pine	Twin stem Lodgepole pine with broken branches caused by wind damage - fell.	Footpath
T7	1	Pine		20, 23, 25 & 40cm dbh.	4-stem Lodgepole pine, wind blown, hung up but still alive and growing towards Zone A. Fell and make safe.	
G8	9	Other/Multiple	Mainly felled/coppiced sycamore		Line of 9 felled/ coppiced sycamore close to boundary. Fell all. 1 stem marked on each stool, whole stool to be felled on each case.	Adjacent property
G9	5	Sycamore		Approx 15m high, trees 40, 46, 62, 70 & 72cm dbh	All trees in poor health with dieback, not sure why but others in the area have also failed and fallen. Fell all.	Adjacent property
G10	2	Sycamore		30cm & 71cm dbh	Syc 71cm is dying, adjacent 30cm will be exposed - fell both, avoiding damaging the adjacent planting and regen, and leaving high stumps for habitat value if possible.	Adjacent planting and regeneration.
G11	3	Other/Multiple	Various		Trees on boundary above bank and ditch, close to tarmac track, all have ivy. Severe ivy to allow better inspections. Trees not marked.	
T12	1	Sycamore		60cm dbh	Has extensive rot in base, within reach of allotment - fell. Check base for likely roosts etc.	Adjacent property

T13	1	Pine		60cm dbh	Corsican pine leaning and weighted over allotments, will be more exposed when adj syc felled. Fell.	Adjacent property
T14	1	Pine		55cm dbh, 12-15m high	Lodgepole pine is growing considerably towards properties, other similar trees in area have wind damage or are wind blown - fell. Also move branches already cut from other trees back from the boundary.	Adjacent property
