Thank you for your notification of 16 June 2026 seeking the views of the Coal Authority on the above.

The Coal Authority is a non-departmental public body sponsored by the Department for Energy Security and Net Zero. As a statutory consultee, the Coal Authority has a duty to respond to planning applications and development plans in order to protect the public and the environment in mining areas.

The Coal Authority response:

On the basis that the built development layout still avoids the remediated mine entries on the site, I can confirm that the Coal Authority has **no objections** to this planning application.

I hope this is helpful however please do not hesitate to contact me if you would like to discuss this matter further.

Yours sincerely

Chris MacArthur
