**To:** Development Control  
**Cc:** Christie Burns  
**Subject:** 4/26/2039/0F1 - WHARTONS, 1 DUKE STREET, MILLOM

Proposed introduction of three electric vehicle charging bays (2 chargers) and associated external works including the erection of a lighting / cctv pole & feeder pillar

Thank you for the above planning consultation.

There are no objections from Environmental Health to this development. The proposed provision of artificial lighting should avoid excess glare and light spill to neighbouring dwellings and further information on good practice is available through the ILLP GN01/21 guidance.

Regards
