Discharge of conditions 4, 6, 10, 11, 12, 13, 15 & 20 of planning application 4/21/2489/0F1

Thank you for the above planning consultation.

Environmental Health are satisfied with the Validation Report (Parts 1, 2 and 3) and can confirm that this can partly discharge condition 11 (Contamination Remediation Strategy). Further work is required to validate the clean cover systems in residential gardens and public open spaces and for the ground gas protection measures, both of which are to be undertaken as the development is built out.
